

Delicious Flowers are the ultimate in delicious gift giving. Not only do we have a fantastic range of delicious fruit and chocolate bouquets that are great for personal or corporate functions, but each bouquet also comes *with its own gift* - one of our premium quality vases, pots or baskets - so after the bouquets have all been eaten you have a beautiful and practical keepsake reminder of your gift.

We have lots of vases, pots and baskets to choose from, be it elegant, ornate, simple or rustic, plus we are always adding to our range, to see them first join our e-mail list and also get great special offers.
