the Money Club

When Emily Chantiri, Frances Beck, Dianne Hill & Di Robinson (L-R) decided to set up an investment club, they could never have guessed where it would take them. Having virtually no previous financial experience, they managed to achieve an investment return rate as high as 30-35% - the fruits of monthly meetings filled with good wine, good food and much lively discussion! Realising that other people were interested in setting up similar clubs, but just didn't know how, they published *The Money Club* in 2001 that quickly became a best seller, with the revised and updated edition released August 2007. With a contribution of \$50 to \$75 a month, this is an investment within most people's reach. *Financially Fit for Life*, published in 2003, is a layperson's guide to overcoming the real and perceived obstacles that prevent us from taking charge of our money. The women juggle busy careers and motherhood, and all wonder why on earth they didn't start their money club earlier! Frances Beck (a lawyer) and Emily Chantiri (a writer) join us to share their experiences. For more information please visit:
